PROFESSIONAL SUMMARY

MCA graduate and aspiring Web Developer with practical experience in MERN stack development, responsive web design, and project building. Skilled in HTML, CSS, JavaScript, Node.js, Express.js, and MongoDB with a strong passion for learning, problem-solving, and building impactful applications. Seeking an entry-level opportunity to grow as a software developer.

EDUCATION

LNCT University, Bhopal

Master of Computer Application (MCA) – 81.30%

2023 – 2025

Bhopal, MP, India

Tilka Manjhi University, Bhagalpur

Bachelor of Computer Application (BCA) – 71.31%

2018 – 2022

Bhagalpur, Bihar, India

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript, HTML5, CSS3

Frontend: React.js, Vite, tailwind CSS, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Hoppscotch, Render, vercel, Postman, Cloudinary, MongoDB Atlas

Libraries & Packages: React Context API, React Markdown, UUID

Core Concepts: OOP(Object-oriented Programming) REST APIs, Authentication, CRUD Operations, MVC Architecture, Deployment, DSA Basics

PROJECTS

Wanderlust - Travel Stay Booking Platform | *Node.js, Express.js, MongoDB, Bootstrap, Leaflet.js, MongoDB*

- Developed a full-stack travel and stay booking platform inspired by Airbnb using Node.js, Express.js, MongoDB, EJS, and Bootstrap. Implemented user authentication, CRUD operations, image uploads with Cloudinary, responsive UI, search and filtering features, interactive maps, and owner-based authorization. Deployed the application on Render through GitHub integration.
- Integrated deployment workflow and environment variable management for production hosting.
- GitHub: [Repository Link](#)
- Live Demo: [Deployed Link](#)

Nexoara AI - AI Powered chat Application | *React.js, Node.js, Express.js, UUID, Groq API, LLM API Integration, MongoDB*

- Built a modern AI-powered chatbot application using React.js, Node.js, Express.js, MongoDB, and Groq API.
- Built an AI-powered web application focused on improving user interaction and productivity.
- Designed responsive frontend interfaces and integrated APIs for dynamic AI-based responses.
- Worked on component-based architecture, state management, and deployment optimization.
- GitHub: [Repository Link](#)
- Live Demo: [Deployed Link](#)

CERTIFICATIONS

- Frontend Web Development - 1Stop.ai
- MERN Stack Development -Apna College
- 160Days of coding challenge(DSA in Java)- GFG
